

# PHOTOMOTO AFRICA

## “CAMERA, AFRICA AND TWO WHEELS”

Ricardo Serpa, a Brazilian photojournalist based in South Florida with over 25 years of international experience, has partnered with Ayres Adventures to offer the world’s first *PhotoMoto* tour, developed with the objective of offering a top-class photographic experience combined with one of our already famous motorcycle tours. Participants in the *PhotoMoto* tour will have a photography workshop like no other, riding through bucket-list roads and experiencing incredible photo opportunities along the way. Ricardo will be offering hands-on instruction throughout each day, while the group stops in scenic places, focusing on image composition, lighting and general photographic approach to each subject.

*All photos by Ricardo Serpa Photography*

We have developed a one-of-a-kind Southern Africa itinerary for the first *PhotoMoto* tour, favoring scenic routes that will provide plenty of opportunities to stop and capture the stunning landscape and the different cultures you will be visiting. Here are some of the highlights:

- Riding through the Golden Gate National Park, with great views of surrounding mountain ranges, and the foothills of the Drakensberg Mountains, which form the border between South Africa and Lesotho.
- Riding through several small African towns, where participants will get a great view of the traditional ways of living in the Zulu kingdom.
- Riding through the Hluhluwe-Imfolozi National Park, where riders will have the option to take an afternoon boat cruise to see hippo’s, crocodiles and many different bird species.
- Crossing into and riding through Swaziland, enjoying some spectacular mountain views.
- Kruger National Park, the most well-known game reserve in South Africa and home to the African Big 5 animals. A full-day’s game drive in a safari vehicle with some great wildlife photography opportunities.
- Riding to Graskop through the Panorama Route, which includes magnificent riding as well as breathtaking views of the Blyde River Canyon, God’s Window and several other view points along the way.
- Riding through the Long Tom pass, spending the night in Dullstroom, the fly fishing capital of the world!

### ABOUT RICARDO SERPA...

Ricardo Serpa is a Rio de Janeiro, Brazil native photojournalist, who has been working as a professional photographer for over 25 years. With a profound passion for photography, he wrote a weekly digital photography column at Jornal do Brasil for over 7 years, taught Photo-

shop for Computer Graphics graduates in Rio, and then moved to South Florida in 2001, together with his family where he opened a successful commercial studio.

Another side of Ricardo's background is his passion for riding, which he started when he was 18. He fulfilled one of his lifelong dreams, which was to ride all the way to the end of the road in Prudhoe Bay, Alaska. The journey lasted 10 weeks, and he rode solo for 19,000 miles, taking photographs along the way for an upcoming photo book.
