

Riding in Patagonia, Argentina

USHUAIA - DISCOVER PATAGONIA

A Bucket List Destination

Our 15-Day *Ushuaia – Discover Patagonia* Adventure begins in Bariloche and ends in Ushuaia, Argentina – the farthest south it’s possible to ride a motorcycle anywhere in the world. This Adventure includes significant portions of dirt and gravel, as well as the possibility of the legendary Patagonian winds. The tour is recommended for experienced riders only, especially if riding two-up.

Key attractions include:

- A two-night stay in Bariloche
- A free day in Bariloche with the option to ride the beautiful motorcycling roads in the area
- An overnight stay in the historic town of Puerto San Julian, where Magellan and his crew spent the winter in the town’s harbor in 1520
- A two-night stay in El Calafate, from which we will visit Los Glaciers National Park and the Perito Moreno Glacier. View one of the largest and most impressive glaciers in the world, where huge chunks of ice “calve” and crash into the water regularly

- A two-night stay at Torres del Paine National Park - one of South America’s most popular national parks
- A ferry crossing of the Straits of Magellan to the island of Tierra del Fuego
- Tierra del Fuego National Park, just a half-hour ride from Ushuaia

RIDING CONDITIONS

Roads include significant portions of dirt and gravel. This trip is intended for experienced off-road riders. In Patagonia, high winds are often prevalent. The windy section of the trip is almost entirely on straight roads, which we've classified as "tame". The "tame" designation is not to suggest "uninteresting". It's meant to designate good paved highways that do not entail twisties or significant changes in elevation. Riding two-up is possible for riders that have off-road riding experience with a passenger.

Ayres Adventures took us on one of the best trips of our lives. With 13 friends we rode for a week through Patagonia. Ayres Adventures organized everything with professionalism, ...and they made the trip fun and memorable for everybody. Thank you!
