Whew!!!

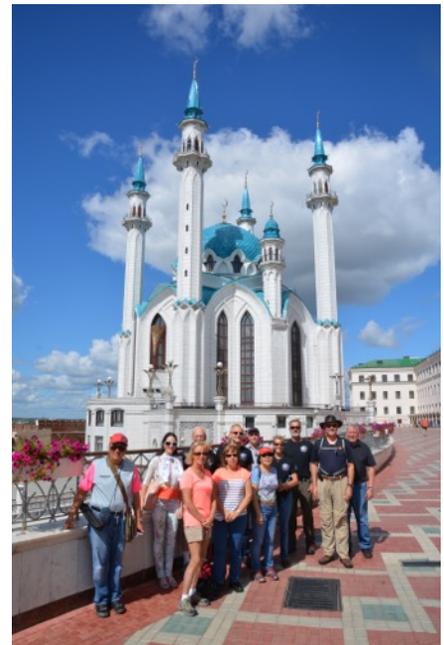

The Epic Journey 2015

What an achievement! After sixty-nine days, 11,761 miles and six countries we made it to Hong Kong!

[The Epic Journey](#) certainly proved to be 'Epic' in every sense of the word. It was an adventurous ride that tested both man and machine, as we traversed almost half-way around the globe starting in Riga, Latvia, and riding through Estonia, Russia, Kazakhstan, Mongolia, and China before ending in Hong Kong.

Read about the riders' experiences and see their many photographs on our [Epic Journey Blog](#).

Can't get away for 69 days but dying to do this Adventure? Stay tuned for details coming soon on how you can participate in the next Epic Journey.

Lifetime Adventurer Award

200 Days On Tour

Marilyn Makepeace has just reached our highest possible Adventurer Club level, after riding more than 200 days with us on 5 different continents. She's the first woman rider to earn our [*Lifetime Adventurer Award*](#).

When Marilyn retired from her occupation as an underwater photographer, she took up motorcycling with the thought of doing a *little* travelling. What an understatement!

Marilyn first joined us for a trip to South America in 2005. As a follow-up, she booked two trips back-to-back in Africa. As with most visitors to Africa, she couldn't get enough, and returned to do our [*Into Africa*](#) adventure, during which she added gorillas to the list of the many exotic animals she's encountered. Marilyn has been as far north with us as Prudhoe Bay and as far south as Antarctica. Her recent completion of our 69-day *Epic Journey* finally put her over the top.

When not on tour, Marilyn spends time at her home in Santa Barbara, where she has been actively rescuing/adopting senior, special needs golden retrievers for 30 years.

Congratulations, Marilyn! We greatly appreciate your patronage and loyalty over the years, and look forward to riding with you again soon!

Empire of the Incas

A Decade in the Lost City

Ten years!

That's how long we've been leading adventurers through the enchanted land of the Incas. In that time period, we have introduced more than 235 guests to the "must-do" attractions of this fascinating region. In addition to a visit to the "lost city" of Machu Picchu, our [*Empire of the Incas*](#) adventure features Lake Titicaca, the Floating Islands of the Uros Indians and the Andean resort of San Pedro de Atacama with its stunning scenery, including geysers, sand dunes and bizarre rock formations. Other attractions include crossing the Atacama desert (driest in the world), a ride along the Pan American Highway and a visit to the Colca Canyon, where you can see giant Andean condors rise from its depths. This colorful, culturally rich, fun-filled tour is a great two-up get-away. If you are interested in this adventure, our next [*Empire of the Incas*](#) tour starts in February. Check out the details on our website.

New Switchback Challenge Tour

The Dramatic Dolomites

Following the tremendous popularity of our first two Switchback Challenges, we are happy to announce our latest: [The Dramatic Dolomites](#). As with all of our Switchback Challenges, this tour is designed to maximize the time riding great motorcycling roads through the Alps while minimizing hotel changes. This 7-day tour begins and ends in Munich, with the remaining four nights spent at a “biker friendly” hotel in the Italian Alps, in the midst of some of the best riding in the Dolomites. While riders are out enjoying hairpin curves, 10,000-ft peaks and high elevation passes, non-riding companions can enjoy an amenity-laden hotel situated in a locale with plenty of shopping and local attractions. For more details, including daily itineraries, visit the [Dramatic Dolomites](#) webpage.

All Seven Continents

A True Global Rider

Many of you know, and have enjoyed riding with Claus Lazik, one of our most experienced tour leaders. Throughout his career, Claus has ridden all over the world, including a ride on the continent of Antarctica. So it was a surprise to us when Claus recently mentioned that he had only ridden on six continents. The missing continent? North America!!

While attending Ron’s Life Celebration in Galveston, TX, Claus thought, “This is my chance!” Herb Anderson generously handed Claus the keys to his BMW K1200, and Claus set off around the block to conquer his last continent.

Congratulations, Claus!! You are one of the very few people who can say you have truly ridden on all seven continents!

Our New Catalogue

New 2016/2017 Catalogue

We are in the process of finalizing the Ayres Adventure 2016/2017 tour catalogue, which contains details of the exciting new tours we have added to our Adventure calendar. We will mail a copy in the next few weeks to those of you who have already requested one. Others can request a copy by completing our online [catalogue request](#).
