# SPAIN AND MOROCCO ADVENTURE

## *Another World Awaits*

This 14-day Adventure has been carefully crafted to offer some of the best riding and most popular attractions in Spain and Morocco. The tour includes the luxury accommodations, upscale dining, and exciting group activities that have become synonymous with an Ayres Adventure. The tour begins and ends in Málaga, one of Spain's most alluring cities. After taking a ferry across the Strait of Gibraltar, we'll spend our first Moroccan night in Tangier, where the North African portion of the Adventure begins.

Riders will find that traveling in Morocco is very different from traveling in any other place they might have toured.

Key attractions include:

- An optional visit to the British Colony of Gibraltar, on the Strait of Gibraltar on the Spanish coast
- Two-night stay in Marrakesh, home of the largest souk (traditional market) in Morocco and location of one of the busiest squares in Africa – Djemaa El-Fna. The square bustles with dancers, acrobats, musicians, snake charmers, and traditional food vendors

- Two-night stay in the region of Erfoud, a base from which you'll have the opportunity to enjoy a variety of activities in the Sahara Desert, including riding the dunes on quad bikes or camels
- An overnight stay in the Sahara Desert in a luxury tented camp with ensuite facilities
- Two nights in the imperial city (and UNESCO World Heritage Site) of Fes. The tour includes a guided walking tour of the Medina of Fes el Bali, the old walled city (founded in 789) which is reputed to be the largest contiguous car-free urban area in the world. Fes is the most picturesque of the four Imperial cities in Morocco
- Visit to Ronda - famous for bridges that span the stunning Tajo Canyon upon which the city is perched. Ronda is also known for the Plaza de Toros de Ronda - the oldest bullfighting ring in Spain

## Did You Know?

*The word "sahara" means great desert in Arabic. Although the Sahara covers about 25% of the African continent and is comparable in size to the United States, it is not the largest desert in the world. Because a desert is defined as an area receiving less than 10 inches of precipitation per year, Antarctica and the Arctic are both larger deserts. The Sahara can only be said to be the largest "hot" desert.*
